This technical document contains forward-looking statements. These statements include

monitoring:

- I. The business model of the issuers of tokens, goals and objectives.
- II. Rules and guidelines to distribute reimbursements to our clients.
- III. Guidelines and criteria for acquiring other web technology projects and mobile applications from our "program incubator"

The forward-looking statements are based on current expectations and assumptions regarding the Token Issuer business, the economy and other future conditions. Because forward-looking statements relate to the future, by their nature, they are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict. The actual results of the Token Issuer may differ materially from those contemplated by the forward-looking statements. Prospective investors are cautioned that they should not rely on any of these forward-looking statements as statements of historical facts or as guarantees or guarantees of future performance.

Important factors that could cause actual results to differ materially from those in the forward-looking statements include the following:

- Our ability to promote and develop the business model of dcashcoin.
- Our ability to develop and design websites and mobile applications
- Our ability to anticipate or identify potential risks to the business, such as fraud.
- Our ability to market our services in the open market at a price. The model requires generating the expected returns we anticipate.
- Our ability to identify responsibilities associated with the acquisition of projects before their acquisition.
- Our ability to add value to dcashcoin through new productive projects for our Incubator Program "Incubator"

Any forward-looking statement made in this technical document refers only as of date on which it was made and is expressly qualified in its entirety by the above warning statements. Factors or events that could cause actual results to differ may arise from time to time, and it is not possible to predict them all. The token The Issuer does not undertake and has no obligation to update any future, statement, either as a result of new information of the funds.

Our vision is to create the first cryptocurrency to be used in a mobile application in Mexico for a decentralized blockchain world. We imagine an ecosystem where people from all over Mexico can enter, download and use the mobile application.

Software, computer engineering and finance are creating a Shell ground for what many have considered the fourth industrial revolution. This next wave in the way that companies, technologies and people. interacting with each other is likely to be more transformative than any previous industrial revolution we may have.

HELP US TO CHANGE THE WORLD

THE DCASHCOIN TEAM

Dcashcoin is the first cryptocurrency based on smart contract technology and the chain of blocks to focus the application "lives Mexico" as another option for payment of products and services in the affiliated establishment in the mobile application.

Dcashcoin's business model is based on the acquisition of projects for the development and administration of websites, mobile applications and as exchange currency for goods or services in establishments within the "vive Mexico" application.

We analyze factors such as: market niches, high demand in distribution networks where we can use our human and technological resources. and economic resources to help the project "vive mexico grow.

Our "live Mexico" mobile application will act as a Dcashcoin capital investment fund. where a committee will analyze business opportunities in Mexico and consider incorporating them into the business model. Our first project is about the mobile application "lives Mexico" and a company named.

Business Development Bcs. He has been dedicated to the development and administration of websites, mobile applications, graphic design, advertising, social network administration and production of corporate and promotional videos with last generation drones. during the last 3 years in the peninsula of Baja California Sur, Mexico.

We designed a mobile application that plays the role of a virtual directory of establishments: restaurants, coffee shops, bars, nightclubs, spas and more establishments that you want is in the application under a previous analysis of our staff to detect if they are candidates to be inside of the application. In which users can download the application from the Playstore and Appstore platforms for free.

The user will lodge the application in his mobile device, where he will have access to the application and consult the promotions, price list, locations, photo gallery, videos and forms of payment and contacts of the affiliated establishments in the application.

We constantly monitor our operations to make sure we are on time to comply with our quality policy and service as technical support of the application. Where Dcashcoin fulfills its participation as a currency of interaction of goods and services within the mobile application, where the application has a link to application Wellet Waves for the user to host our currency and use the waves wallet to make purchase and sale of the our token

The cryptocurrency. It is a cryptocurrency using the Proof-of-Stake algorithm based on the blockchain technology and based on the technical document of Satoshi Nakamoto. With a leased participation test (Leased Proof-of-Stake) on the Waves platform. Our plan is to have the first mobile application (virtual directory) of restaurant establishments, coffee shops, bars, and the like. Same application that will have traditional payment methods and payments with Dcashcoin. In all of Mexico.

Currently (November 17, 2018 Dcashcoin that is valued at 1 dollar in the market and listed for purchase on the DEX platform of Waves, with 100 million coins of which we as developers of the currency reserve 50% of the same ones leaving 50 million coins in the market.

Dcashcoin counts on its official website www.dcashcoin.org to publicize the project.

TECHNICAL INFORMATION

1. Name of the asset - Dcashcoin.
2. Short name - DCC
3. Algorithm - active based on Waves
4. Block height - 1259652
- 5 token supply - 100000000.00000000
6. Commission - 0.001 Waves.
7. Block time - 1 minute
8. Programming language - Scala.
9. Type of mining- POS (Proof of Stake) participation test
10. secp256k1ver - new
11. Source code- <https://github.com/wavesplatform>
12. Explorer - wavesexplorer
13. API: <https://nodes.wavesplatform.com>

The tokens will be made available in WAVES DEX cryptocurrency exchange platforms, it will be the currency with a real value for the exchange of goods or services in establishments affiliated with the "vive Mexico" application.

Users with Dcashcoin coin wallets will be able to use their token to pay for services or products in any establishment within the application.

This will give the supply and demand of the currency making the ecosystem grow and generating value to the currency.

We believe and we have the certainty that the application project "lives Mexico" will be able to expand throughout the Mexican Republic as well as our cryptocurrency that are linked for their exchange in the affiliated establishments in the same application. An application with its own economic ecosystem based on blockchain technology and an unrooted exchange platform.
